are all interested alike. I see Mr. Irby in his address lays cut off Farley's leg above the knee. particular stress on the constitutional to stanch the blood with his handkerconvention and one of its particular chief, and advised Farley how to do objects, which is to forever settle the question of suffrage in this State. It seems that the desire is to get rid of the colored vote so that the white people may divide whenever they see people may divide whenever they see crush its rider. cause to do so; for it has been announced on the hustings that two parties in politics is a healthy thing. Well, we have always had amongst us those who differed from others as regards to politics or issues and here. "Some gentleman, you have done in the said:

"Now, gentleman, you have done in the said:
"Now, gentleman, you have done." gards to politics or issues and have always shown it by casting their ballot for the men who stood square with them. But we were left a unit as soon as the election was over. I fear Butler. too parties means something else when its true nature is discovered. But I breathed his last. The two men had breathed his last. The two men had have somewhat digressed from the never seen each other till that morning thoughts that I wish to present.

Voters when you cast your vote on the voters when you cast your vote on the similar of noble self-serifications are said of the said of the serification when you can be self-serification. constitutional convention, vote no; if sacrifice. you do not, I feel sure you will regret it the remainder of your lives. Now, why do I say no, you have heard the issues discussed for the last four years and you have been told all the time that in order to get rid of the negro vote it is necessary to have an educational or property qualification Now, let's reason together, laying aside all prejudice and partisan feeling and see how the thing works. I see from the last census report that twenty per cent of our white population can't read or write, so if that is made a disqualifying clause there will be a -large number of our good citizens whose heads will fall into the basket and you will not have accomplished your object, for I am satisfied that the colored people will not be reduced so low that they will not appear on the surface again, for you have noted what sacrafices they have made in order to get an education to qualify them to solve the seven box system which has about played its part in the history of this country. Now the point is, if you disqualify them on that line you disqualify your white friends and make them subjects of a government they have no voice in creating. So that argument will not do. What next! Property qualification! That will throw a bombshell into their camp sure; will it not? You say, yes, well, now, see what effect it will have on the white voter. Do you own property? You say, yes. Well, how many of our good citizens do not own any? Now

tions than we have. There is also considerable opposition to the public school tax, which is another grand feature of our system; that we cannot dispense with, you certainly have realized the importance of the system, imperfect as it is.

Now I think I have said enough to

think seriously, if so you will see that

thousands of our poor people, but good, honest, loyal citizens, friends and

neighbors, will forever be debarred

ment. So you see property qualifica-tion will not save you. Your leaders have instituted a fight in favor of the

poor man; now victory has crowned

them through poor men's votes. They are willing to forever sacrafice them on account of their poverty. Now

these are plain facts and no fiction for you to consider. I do not urge you to array yourself against rich men, but

you had better keep in the same boat

will also. There is another change in

the constitution that it is desired on

the part of some to get rid of—the homestead exemption. Now are you

willing for that to be eliminated and

deny your wives and children of all that possibly they possess? How

many people are in possession of homes today on account of that exemption

that would be tenants at will for somebody? It is the only salvation for our

dependances. Our State is not alone

in having a homestead exemption. Other States have more liberal exemp-

from having any voice in the g

onvince the minds of our people so that they will see the importance of voting, no. Another thing to consider, who are you going to vote for. Those who favor or those who oppose. Be careful along there. It has been charged by the Reform element that it is only the Antis that oppose the convention because they are bidding for the negro vote. Well, a few years ago, I was convinced who worked for that vote and helped to elect a Governor, and I am satisfied that they would work as hard as anyone else if there was an opposition ticket in the field. I am on record as opposing the convention before this division took place. Let Messrs. Icby & Co. know that there are two sides to the qustion; they only show one side to you and work upon your prejudices for your vote. What disqualifies one will disqualify the other; otherwise it would be class legislation and would not be worth the paper it is written on. Furthermore, I do not be lieve it would stand the test before the United States BUGGY."

be pleased to explain to you the merits of the "PREMIUM CAROLINA BUGGY."

I hope you will give this subject your serious and prayerful attention, for I am only prompted to throw these thoughts out for the good will I bear my people, so adieu. T. B. McKinstry.
